[Zoom · ID 884 8894 7071 · Code 984533](#)

HYBRID

RECORDED

Cultural differences in the experience and treatment of psychosis.

Learning objectives

- Understand how historical and cultural contexts shape psychotic disorders.
- Recognize cultural influences on symptom expression and meaning.
- Apply cultural insights to help-seeking and treatment planning.

G. Eric Jarvis, MD is Professor of Psychiatry at McGill University and Director of the Cultural Consultation Service and First Episode Psychosis Program at the Jewish General Hospital. His work focuses on cultural influences on psychosis, access to care, and early intervention.
