ACADEMIC GRAND ROUNDS

Practice-oriented research: Expanding the scientific foundations of psychotherapy

Professor Louis Castonguay

Department of Psychology, Pennsylvania State University

Session chaired by Vincent Laliberté, MD

October 1, 2026

1:30 PM – 3:00 PM (ET)

ICFP Amphitheatre, 4333 Côte-St-Catherine Rd., Montreal QC H3T 1E4

IN PERSON ONLY

ENGLISH

Learning objectives

- Being able to identify different types of practice-oriented research and some of their points of convergences
- Acquiring knowledge about studies conduct within practice-research network
- Understanding some of the guiding principles underlying practice-oriented research

Abstract

The goal of this presentation is to describe how practice-oriented research can foster partnerships between researchers and clinicians to better understand clinical practice and expand the scientific foundations of psychotherapy. Different types of practice-oriented research will be described, with an emphasis on studies that have emerged from diverse practice-research networks. Suggestions to further facilitate practice-oriented research and the accumulation of practice-based evidence will also be discussed.

About

The primary focus of Dr. Castonguay's research is on factors related to the process and impact of psychotherapy, and over the past years has been conducting practice-oriented research aimed at better understanding and possibly improving psychotherapy as practice in natural settings. Dr. Castonguay has more than 270 publications, including 14 co-edited books.
