[Zoom · ID 884 8894 7071 · Code 984533](#)

HYBRID

RECORDED

ENGLISH

Learning objectives

- Describe pain, opioid use and stress in the context of critical illness recovery
- Explore determinants of chronic pain development in survivors
- Discuss coping in survivors with chronic pain and their family members

Céline Gélinas, N, PhD, FCAN is a leading nurse scientist at the Centre for Nursing Research and Project Director at the Lady Davis Institute of the Jewish General Hospital. Co-director of the RRISIQ since 2020, she is internationally recognized for advancing pain assessment in critically ill patients, including the development of the widely used Critical-Care Pain Observation Tool (CPOT).
